ATYPICAL EVOLUTION

Mentorship: Thesis or Dissertation

Information about the services

I am pleased to share the available mentoring options associated with research. Our mentoring is based on collaborative and structured interaction aimed at promoting: 1) the acquisition of skills and 2) working towards the research goals of the mentee. The process primarily belongs to the mentee, who has autonomy and makes the final decisions regarding their project. Therefore, all processes are voluntary and confidential.

Below, I present the variety of services available, along with estimated costs for the services that will be offered. If you have any questions, please feel free to contact me. If you do not find a service that meets your needs, a customized one could be designed based on your requirements.
